Rijan Adhikari

Software Developer & Cybersecurity Enthusiast

business.rijan.np@gmail.com

github.com/rijan-adhikari

Nepal

Technology enthusiast building practical web projects and developing skills in software development and cybersecurity. Hands-on learning spans web interfaces, Python APIs, operating systems, networking, and authorized security labs.

// Selected Projects

Restaurant Billing System

WEB APP / HTML · CSS · JAVASCRIPT

Billing workflow for order entry, itemized totals, and checkout, focused on practical usability.

NEPSE Paper Trading Backend

IN DEVELOPMENT / PYTHON · FASTAPI · SQL

Simulated-trading learning project structured around API schemas, data models, and database layers. Not a real-money trading product.

Proposal Website

COMPLETE / HTML · CSS · JAVASCRIPT

Interactive frontend experiment combining custom interface design, animation, sound, and a personalized user flow.

// Labs & Practice

Networking and cybersecurity practice in controlled lab environments using Nmap, Wireshark, Burp Suite, Metasploit, Kali Linux, and Aircrack-ng. Participated in a cybersecurity competition involving authorized testing in a controlled environment; no professional security consulting claimed.

// Systems Exploration

Hands-on experiments with Linux, ChromeOS, virtual machines, Android customization, custom ROMs, and OpenCore.

// Education

+2 · The Times International College

Dillibazar, Kathmandu, Bagmati Province, Nepal

Grade 10 · Jana Jyoti Model Secondary School

Lalbandi, Sarlahi, Madhesh Province, Nepal

// Technical Skills

Development

HTML, CSS, JavaScript, responsive UI, Python, FastAPI, APIs

Security Labs

Networking, Nmap, Wireshark, Burp Suite, Metasploit, Kali Linux, Aircrack-ng

Tools & Systems

Git, GitHub, Linux, Windows, ChromeOS, virtual machines

// Certifications

Ethical Hacker

Cisco Networking Academy · Certificate · Oct 2024

Introduction to Cybersecurity

Cisco Networking Academy · Certificate · Oct 2024

Badges: Ethical Hacker; Introduction to Cybersecurity. Module achievements: Threat Analysis; Cybersecurity Administration. Cisco Networking Academy · Oct 2024.

// Focus

Building software, strengthening networking fundamentals, and learning cybersecurity through consistent practice.
